

Food Pigs

For pigging of pipelines in the food and process industry

The pig consists of a one-piece moulding and can be supplied with or without signal-magnet inside. In order to avoid bacterial contamination, the food pig is completely seamless.

The Food Pig is available in polyurethane, NBR, EPDM and silicone.

The Food Pig will give an excellent seal in all pipeline configurations and will traverse 1.5 D radius bends without effort.

Diameter (mm) x Length (mm)	Available materials
25x39	Polyurethane, EPDM, Silicone
36x59	Polyurethane, EPDM, Silicone
49x77	Polyurethane
51x76	Polyurethane, EPDM, Silicone
62x90	Polyurethane, EPDM, Silicone
68x100	Polyurethane
74x110	Polyurethane, EPDM, Silicone
74x136	Polyurethane
81x110	Polyurethane
82x110	EPDM, Silicone, NBR
84x110	Polyurethane
84x157	Polyurethane
99x147	Polyurethane
101x147	Polyurethane
126x151	Polyurethane
